EDUCATION

- **Double Degree in Artificial Intelligence and Computer engineering**
Universidad San Jorge
2023-

COURSES

- **Introduction to Deep Learning with Python**
Universidad Politécnica de Madrid
- **Foundations of MLOps and Model Automation**
Universidad Politécnica de Cataluña
- **Generative Artificial Intelligence: Applications and Challenges**
Universidad de Barcelona

LANGUAGES

- **Spanish** : Native
- **English**: B2 (Cambridge Certificate)
- **French**: B1 (DELF)
- **German**: B1 (Goethe-Zertifikat)

ABOUT ME

I am a motivated and hardworking student who is studying a double degree in Artificial Intelligence and Computer Engineering at Universidad San Jorge.

I have knowledge of programming, machine learning, and data analysis, and I have done practice related to the development of AI models. I'm really interested in Generative AI and Deep Learning, and excited to apply my skills in a high-tech, innovative environment like Bosch.

I enjoy working in teams, solving difficult problems, and growing both technically and professionally.

SOFT SKILLS

- Teamwork
- Problem solving
- Adaptability and desire to learn
- Critical thinking
- Good communication
- Attention to detail

TECHNICAL SKILLS

- Python and C programming
- Data preprocessing and data analysis
- Knowledge of supervised and unsupervised learning
- Experience with cloud platforms (Azure)
